

STRATEGY DESCRIPTION

The WHG Income Opportunity Fund seeks to provide a competitive level of income, along with the opportunity for long-term appreciation by investing in a diversified variety of 45-65 higher-quality securities. The goal is to find the best relative value and solid dividend or interest paying securities including common and preferred stocks, corporate and government bonds, MLPs and REITs. The Fund's performance is typically benchmarked against a blended index of 25% S&P 500 Index, 25% NAREIT Equity Index, 25% Citigroup 3-Month Treasury Bill Index, and 25% Citigroup 10 Year Treasury Index.

INVESTMENT PHILOSOPHY

Management of the WHG Funds is deeply rooted in our 26 year old philosophy that seeks to deliver superior returns while managing risk. We perform our own research to identify and invest in high quality companies that possess undervalued earnings growth potential and have limited downside risk. In other words, we would rather forgo significant upside potential in lieu of experiencing a significant loss.

INVESTMENT APPROACH

- Conservative portfolio management with emphasis on risk management as a basis for long-term capital growth.
- Proprietary fundamental research to identify financially sound companies that offer an attractive opportunity for price appreciation coupled with downside risk limitation.
- Actively managed, bottom-up security selection that results in a well diversified portfolio.
- Team-based research and portfolio management to ensure consistency in the investment process and capitalize on diverse expertise.

INVESTMENT PROCESS

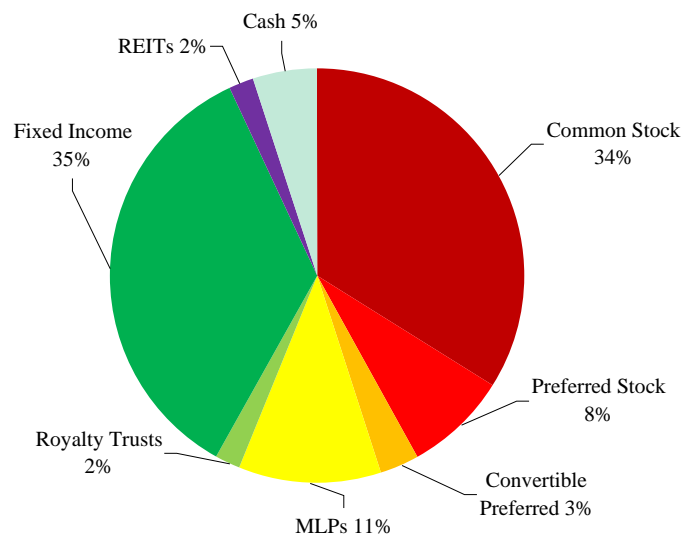

A rigorous 3-step investment process:

1. **Idea Generation:** Our industry-specialist research analysts continually monitor companies within their sector for healthy but improving financial characteristics. Next, they evaluate the company's business fundamentals to uncover earnings growth potential that will be better than what the current stock price indicates. We seek companies that have a combination of:

- Strong free cash flow - we want companies that can generate cash even in stressful environments.
- Improving return on equity - we want companies whose management is enhancing company value from improved business operations and not from financial engineering.
- Strengthening balance sheet - we want companies that are reducing their debt and/or that are not over-leveraged.
- Value - we seek companies that produce a positive earnings surprise without a corresponding change in the stock price.

2. **Collegial review/Confirmation** of analyst investment case: Research groups review the analyst's investment case and challenge model and downside risk/upside potential assumptions. If approved by the group, the security moves to the "Approved Portfolio Candidate" list for consideration by the portfolio managers.

3. **Portfolio Construction:** The Income Opportunity portfolio team maintains a portfolio of several different asset classes. The team continually reviews securities from the "Approved Portfolio Candidate" to evaluate their attractiveness and risk characteristics against the current portfolio holdings. The objective is to maintain a diversified portfolio with the optimal reward to risk profile. Risk is examined in the context of the entire portfolio, using many perspectives including earnings risk, sector exposure, correlations and the security's sensitivity to various macro-economic factors.

Sector Allocation

Subject to change.

Top 10 Holdings

Energy Transfer Equity	Johnson & Johnson
Boardwalk Pipeline Partners, LP	Exxon Mobil Corporation
Bristol-Myers Squibb Company	Microchip Technology, Incorporated
Enterprise Products Partners, LP	Comcast Corp 7% Series B Preferred
Vodafone Group	E.I. DuPont de Nemours & Company

Subject to change. Top ten holdings represent 25.5% of the portfolio.

INVESTMENT TEAM

Westwood believes that team management creates a sense of ownership, accountability and consistency in the investment process.

ABOUT WESTWOOD

Westwood Management was established in 1983 with a focus on serving institutional investors. The firm is a subsidiary of Westwood Holdings Group ("WHG"), a publicly traded New York Stock Exchange corporation. The firm manages over \$10 billion in assets for clients in the United States, Canada and Europe including corporate pension plans, public and union retirement funds, endowments, foundations, mutual funds and trust company customers. All employees have stock in the firm, helping to ensure alignment between their interest and that of the clients. Ownership has steadily increased from 20% when the firm went public in 2002 to 35% today.

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost, and current performance may be higher or lower than the performance quoted. For performance data current to the most recent month end, please call 1.877.FUND.WHG, or visit our website at www.whgfunds.com.

† The Blended Benchmark consists of a 25% weighting of the S&P 500 Index, a 25% weighting of the NAREIT Equity Index, a 25% weighting of the Citigroup 3-Month Treasury Bill Index, and a 25% weighting of the Citigroup 10 Yr Treasury Index.

** The Advisor has contractually agreed to waive fees and reimburse expenses until February 28, 2011. In the absence of current fee waivers, total return and yield would be reduced.

Mutual fund investing involves risk, including possible loss of principal. There can be no assurance that the Portfolio will achieve its stated objectives. Bonds and bond funds will decrease in value as interest rates rise. Portfolio holdings are subject to change and should not be considered a recommendation to buy individual securities. Current and future holdings are subject to risk. Please see the "Related Performance Data of the Advisor" section of the prospectus for information pertaining to the performance of similar accounts managed by the Advisor. The past performance of the Income Opportunity composite is no guarantee of the future performance of the Fund.

Standard deviation is the statistical measure of historical volatility, a measure of the extent to which numbers are spread around their average. Alpha is the measure of risk-adjusted performance. Beta is the measure of risk in relation to the market or benchmark. R-Squared is the measure of how closely a portfolio's performance correlates with the performance of a benchmark. Tracking Error is the amount by which the performance of the portfolio differs from the benchmark. Sharpe Ratio is the measure of the excess return (risk premium) per unit of risk in an investment. The Citigroup 3-Month Treasury Bill Index is an unmanaged index composed of three month Treasury bills. The Citigroup 10-Year Treasury Index is an unmanaged index composed of ten-year Treasury bonds and notes. The FTSE NAREIT Index is an unmanaged capitalization-weighted index that includes all tax-qualified REITs listed on the NY Stock Exchange, NASDAQ, and the American Stock Exchange. The Barclays Capital U.S. Government/Credit Index is a fixed-income market value-weighted index that combines the Barclays Capital U.S. Government and U.S. Credit Indices. It includes securities issued by the U.S. Government, publicly issued U.S. corporate, and specified foreign debentures and secured notes that meet the specified maturity, liquidity, and quality requirements. The Benchmark Indices' returns do not reflect any management fees, transaction costs, or expenses. Investors cannot invest directly in an index.

To determine if this Fund is an appropriate investment for you, carefully consider the Fund's investment objectives, risk factors, charges, and expenses before investing. This and other information can be found in the Fund's prospectus, which may be obtained by calling 1.877.FUND.WHG, or by visiting our website at www.whgfunds.com. Read the prospectus carefully before investing or sending money.
